

Qualitätssicherung. Vom Landwirt bis zur Ladentheke.

Annex 4.2 QS-recognized standards for the soybean production

for the Add-on module Purchase of deforestation-free soy

The standards required in primary production, which are recognized within the framework of this guideline, lay down clearly defined criteria for the responsible treatment of people, nature and the environment in the countries where soy is grown.

Recognized are standards for primary production that are comparable to the requirements of the *FEFAC Soy Sourcing Guideline 2021* in content and have an appropriate inspection system.

Standard	Supply Chain model(s)	Status recognition	Version
Donau Soja	IP, SEG	accepted	Guidelines Status September 2021
Europe Soya	IP, SEG	accepted	Guidelines Status September 2021
ISCC+	SEG	accepted	V3.3 (criteria catalogue) V4.0 (certification)
ProTerra-Standard	IP, SEG	accepted	V4.1 (criteria catalogue) V3.0 (certification)
RTRS	SEG	accepted	V4.0 (criteria catalogue) V4.3 (certification)
Donau Soja	B&C (Protein Partnership)	temporarily accepted*	Guidelines Status September 2021
Europe Soya	MB („Quantity Equivalence“) B&C (Protein Partnership)	temporarily accepted*	Guidelines Status September 2021
ISCC+	MB	temporarily accepted*	V3.3 (criteria catalogue) V4.0 (certification)
ProTerra-Standard	MB	temporarily accepted*	V4.1 (criteria catalogue) V3.0 (certification)
RTRS	MB, B&C	temporarily accepted*	V4.0 (criteria catalogue) V4.3 (certification)
ADM Responsible Soybean Standard	SEG, MB, B&C	temporarily accepted**	V 3.0 (criteria catalogue, certification)
Amaggi FIELD ORIGINS	B&C	temporarily accepted**	Oktober 2022 (criteria catalogue, certification)
Cefetra Certified Responsible Soy Standard	B&C	temporarily accepted**	V 4.0 (criteria catalogue) V 1.0 (certification)
SFAP – Sustainable Farming Assurance Programme – Non Conversion	B&C	temporarily accepted**	V 6.1 (criteria catalogue, certification)
US SOY Sustainability Assurance Protocol	MB	temporarily accepted**	V 3.1 (criteria catalogue, certification)

Qualitätssicherung. Vom Landwirt bis zur Ladentheke.

Standard	Supply Chain model(s)	Status recognition	Version
Bunge Pro-S Certification Program for Sustainable Agricultural Sourcing	MB	temporarily accepted***	V 2021 (criteria catalogue, certification)

Explanatory notes to the table:

* temporarily accepted until the EU regulation on deforestation-free supply chains becomes effective respectively the transition period ends (at least until 30.09.2024).

** temporarily accepted until 30.09.2024.

*** temporarily accepted until 31.03.2024

IP = Identity Preserved

SEG = Segregation

MB = Mass Balance

B&C = Book&Claim
