

Declaration on the ad-hoc categorization of a pig production farm business after implementation of remediation measures

Veterinarian (Name, address)	Vet ID (from Qualiproof)
-------------------------------------	---------------------------------

The following pig production farm business participates in salmonella monitoring. The farm was assigned to Category III during the quarterly categorization on _____. The livestock company shall be re-categorized to the next possible opportunity.

Details of the livestock company	Details of the coordinator
Name:	Name:
Address:	Location:
Postcode, town:	
Livestock Registration Number (VVVO):	

As the responsible veterinarian, I declare that I modulated following measures for implementation in accordance with the livestock owner:	Yes	No	Date
Bacteriological and epidemiological tests to determine the sources of introduction	<input type="checkbox"/>	<input type="checkbox"/>	
Cleaning and disinfection of all sty/sty compartments, including all side rooms belonging to the sty	<input type="checkbox"/>	<input type="checkbox"/>	
Cleaning and disinfection of all facility equipment (e.g. bay partitions, feed dispensers, ventilation shafts, scales)	<input type="checkbox"/>	<input type="checkbox"/>	
Cleaning and disinfection of all used working equipment and clothing (e.g. sorting panels, shovels, brooms, boots, tools)	<input type="checkbox"/>	<input type="checkbox"/>	
Intensive pest control	<input type="checkbox"/>	<input type="checkbox"/>	
Examination of feed regime (e.g. hygiene, feed structure, use of acid)	<input type="checkbox"/>	<input type="checkbox"/>	
Optimization of operational hygiene (e.g. black and white principle)	<input type="checkbox"/>	<input type="checkbox"/>	
Reason why a measure was not taken:			

Place, date of modulation of measures

Signature of veterinarian

The above mentioned measures were implemented in my company. Proofs are available.

Place, date of remediation

Signature of livestock owner

Note: The **coordinator** must enter the **remediation date** in the **salmonella database within 14 days** (calculated from the date of the remediation/ signature of the livestock owner). **Blood samples** from fattening pigs **are taken after completion of the remediation measures** (at the earliest 14 days before slaughter).
