^a Performance of a virtual tour was confirmed by comment in the audit report.

- 8 of the failed Agriculture Poultry controls were found in a single integration in Thailand. All of these KOs were due to the same reason, and that was that feed was purchased from a non-QS approved business.
- Feed was also purchased from a non-QS-approved business at another Agriculture Poultry location in the Czech Republic.
- In the KO of the feed company in Spain, there was incorrect labelling of non-QS feed as QS feed.
- All 10 locations rated "no approval" have already implemented the agreed corrective actions and are eligible to deliver again.
